

CFTF Q&A from Questions Received by E-mail through August 11, 2017

Q – May an organization applying for the LOP & Direct Legal Representation Grant make an arrangement with ICE whereby ICE permits persons who are taken into custody in Central Ohio to be screened before being sent to the Butler County Jail in Hamilton, Ohio?

A – Yes. As long as the organization bidding for the LOP & Direct Legal Representation Grant is providing the LOP and screenings at the Butler County Jail as described in the RFP, then we would allow for additional screenings to take place in Central Ohio for persons who will ultimately be detained in the Butler County Jail pending removal proceedings. It would be up to the organization submitting the proposal to make arrangements with ICE for the screenings.
